Christopher Lewis

(256) 468-0674 | christopher.lewis2357@gmail.com | Huntsville, Alabama

SUMMARY

Junior attending the nation's only high school focused on integrating cyber technology and engineering into all academic disciplines. Enjoy working on software projects and applying technical and problem-solving skills in collaborative environments.

WORK EXPERIENCE

Customer Service Clerk • Publix - Fall 2025 – Present.

- Bagged and loaded groceries for 120+ customers daily while maintaining speed and product safety.
- Assisted customers to their vehicles, providing courteous service and support for individuals with mobility needs.
- Maintained cleanliness of designated store areas, improving safety and presentation standards.

Cashier • Publix - Fall 2025 – Present

- Was promoted to the role of cashier
- Processed an average of 40+ customer transactions per hour, ensuring accurate transactions

PROJECTS

- Developed a large CyberPatriot script for Linux images, integrating a python framework with a CLI parser and bash scripts, while ensuring a compartmentalized, modalized project structure
- Developed multiple full-stack web applications integrating HTML, CSS, JavaScript, and backend Python frameworks, improving functionality and user experience.
- Designed and executed a synthetic biology project aimed at repairing damaged spinal cells, incorporating bioengineering principles and research methodologies.
- Laser cut a 100-piece custom wooden puzzle, ensuring precision alignment and smooth edge finishes for durability and ease of assembly.
- Designed and engraved a personalized Mother's Day plaque

EDUCATION

Alabama School of Cyber Technology and Engineering (ASCTE)

Huntsville, Alabama

GPA: 4.36 /4.5

KEY SKILLS

- Python Programming
- Web Development (HTML, CSS, and JavaScript)
- SQL and Database Management
- OOP (Object Oriented Programing)
- API Management
- Static Code Analysis
- Git and GitHub
- Linux and Windows Terminal
- Virtual Machines Management
- CAD Design (Fusion360)
- Excel Spreadsheet Management and Data Analysis
- Project Management
- Woodworking

RELEVANT COURSES

- Cybersecurity Technical Principals
- Computer Network Security
- Engineering Foundations
- Engineering Applications
- Engineering Systems
- Technical Writing

RELEVANT ELECTIVES

- Into the Cyberverse
- Human Factor Engineering

ADVANDED COURSEWORK

Completed

using a laser cutter, incorporating custom graphics and text for a polished, professional presentation.
- Designed and built a fully functional electric guitar from raw materials, shaping the body and neck to custom specifications, wiring pickups and controls for optimal tone, and performing final setup adjustments to achieve professional-grade playability and sound quality.

LEADERSHIP

- Coordinated leadership activities for the Fellowship of Christian Athletes at ASCTE, engaging 40+ students in biweekly discussions and community outreach.
- Led 30-minute fitness circuits for groups of 10–15 children during multiple summer camps, fostering teamwork and promoting healthy habits.
- Instructed youth classes at a local gym, independently managing lesson plans and safety for groups of up to 12 participants.

VOLONTEERING

- Contributed over 500 volunteer hours at a local gym by running children's fitness classes and summer camps, enhancing community engagement and promoting wellness.
- Supported children's ministry operations at church by organizing activities, preparing materials, and mentoring youth in a group setting.
